

# DISABILITY EMPLOYMENT AWARENESS MONTH

## What is DEAM?

Disability Employment Awareness Month (DEAM) takes place every October to promote and celebrate inclusion of people with disabilities in the workplace.

## Why is it important?

Persons with disabilities still face barriers to employment. DEAM is just one way we, as a community and nation, can come together to remove those barriers for job seekers with disabilities.

## What is MentorAbility?

MentorAbility is a national initiative providing employers with a safe space to learn about inclusive workplace for people experiencing a disability, while also providing a short-term mentorship opportunity to someone interested in your industry.
